I-80 Pavement Rehabilitation Project

Contra Costa County, Project 3J070

Project Location

This project is in Contra Costa County on Interstate 80 (I-80) from the State Route 4 separation (Post Mile 10.1) in Hercules, to the Carquinez Bridge (Post Mile 13.5), in Crockett.

Caltrans Bay Area

CONTRA COSTA I-80 PAVING PROJECT

WWW.CC80PAVE.COM

Project Need

The existing pavement exhibits signs of distress, resulting in poor ride quality and the potential for pavement failure.

Caltrans Bay Area
CONTRA COSTA I-80 PAVING PROJECT
WWW.CC80PAVE.COM

Project Purpose

To extend the service life of the pavement and enhance highway safety.

INTERSTATE CALIFORNIA 80

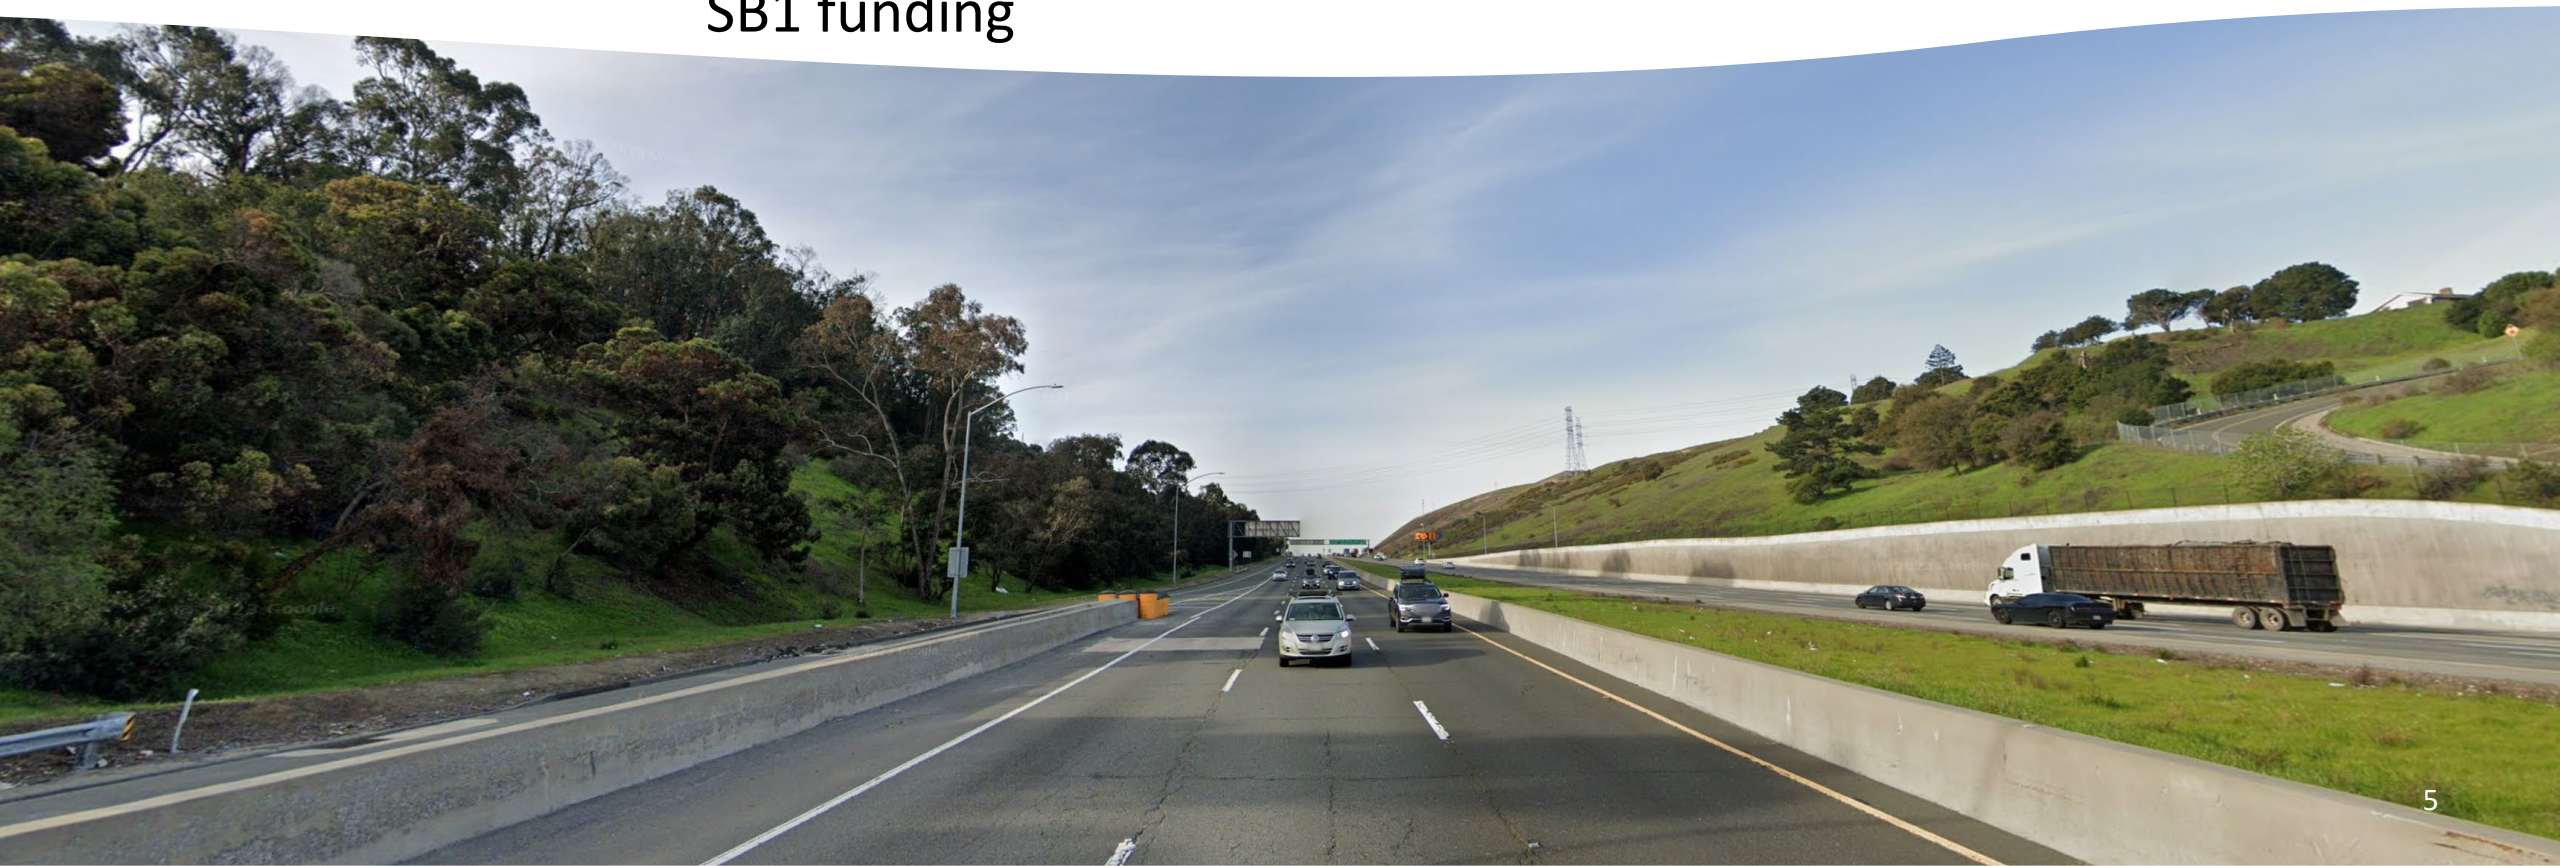
Caltrans Bay Area

CONTRA COSTA I-80 PAVING PROJECT

WWW.CC80PAVE.COM

Project Scope

- 26 lane-miles of pavement resurfacing and restoration for the mainline freeway and ramps within the project limits
- Electrical, Drainage, signing work
- Upgrading curb ramps at ramp termini to be ADA compliant
- Construction Capital Cost is $50m
- State Highway Operations & Protection Program (SHOPP) & SB1 funding



Scheduled Closures

I-80 Weekend Closures

- Eastbound (56 hours each weekend)
  - July 21, Friday (9:00pm) – July 24, Monday (5:00am)
  - August 4, Friday (9:00pm) – August 7, Monday (5:00am)
  - August 18, Friday (9:00pm) – August 21, Monday (5:00am)
- Westbound (104 hours) – Labor Day Weekend
  - August 31, Thursday (9:00pm) – September 5, Tuesday (5am)

WWW.CC80PAVE.COM

Need for Full Closure

Removal of existing paving and installation of Continuously Reinforced Concrete Pavement (**CRCP**) is a labor and equipment intensive operation.

Safety of Caltrans and Contractor staff.

Safety of travelling public.

Performing weeks of overnight work in each weekend.

STEP 1: Demolition

STEP 2: Base preparation

STEP 3: Reinforcing steel

STEP 4: Concrete placement

INTERSTATE CALIFORNIA 80

Caltrans Bay Area

CONTRA COSTA I-80 PAVING PROJECT

WWW.CC80PAVE.COM

Benefits of CRCP

4 weekend closures vs. Over 120 nights of closures

Project should finish in late 2023 instead of late 2024.

Improved ride quality now - CRCP has no joints.

Improved ride quality later – less likely to crack / settle / rock in future due to reinforcing steel.
